ATTACK NEAR CASSION By RICHARD McMURRAY
Associated Press War Editor.
Allied troops, established in a large and growing bridgehead less than 30 miles from Rome, were said by the Germans today to be advancing upon Littoria, 12 miles east of Nettuno, which fell on the first day of the bold amphibious thrust Saturday.

Headquarters at Algiers said American and British troops had advanced four miles inland and extended their beachhead "several miles" north and south of Nettuno, a village of about 7,000.

Every patriotic home in America will want to display this emblem. Paste it on your front door or on a window to show that you have done your part in the 4th War Loan.

Display Your colors

Every patriotic home in America will want to put up this emblem!

This emblem is a symbol of your patriotism. It tells the world that you have done your full share in the 4th War Loan. Every true American will be proud to display it at home.

Our valiant fighting men...soldiers, sailors and marines... on every far-flung battlefront are on the attack... forging ahead steadily, relentlessly. Nothing on earth can stop them... IF WE BACK THEM UP!

Backing them up means throwing every dollar we can possibly spare into the fight right now ... even if it takes sacrifice on our part.

That's the purpose of this 4th War Loan Drive.

To earn the right to display the 4th War Loan Emblem you must invest in at least one EXTRA hundred dollar Bond (at a cost of only \$75)... over and above your reg-

ular War Bond subscription. But don't stop with one! Invest in all the extra Bonds you think you can afford... then invest in some more!

Remember, every dollar you put into War Bonds does double duty. It helps to win the war... and at the same time it insures your own financial security.

Here, too, is a chance to help your company meet its quota in this 4th War Loan.

Maybe this will mean sacrifice on your part. Maybe it will mean doing without something you want. But don't forget... while you are only lending a few spare dollars... thousands of our gallant fighting men are giving their lives for you! Show that you're backing them up 100%. Invest in extra War Bonds to the limit of your ability. And display the 4th War Loan Emblem at home!

BUILD YOUR FUTURE WITH THE WORLD'S SAFEST INVESTMENT

All over the country men and women look to the future with confidence. They are the ones who have put part of their extra wartime earnings into the world's safest investment—U. S. Government War Bonds.

Yes, they are helping their country in its grimmest struggle. But they are helping themselves, too! They are helping to secure their future, to weather any troubled days that may lie ahead.

What about you? Are you letting the dollars slip through your fingers—dollars that should be put safely away in War Bonds?

There are War Bonds to fit your needs... Bonds backed up by the strongest "company" in the world. Build that home you have always dreamed about. Send your child to college. Buy the wonderful things that are coming after the war. YOU CAN DO IT WITH YOUR WAR BOND SAVINGS.

It will feed the butadiene to two adjacent plants, operated by rubber companies, in which it is used as the principal ingredient in synthetic rubber.

Refinery gasses, which are the raw stock for the manufacture of butadiene, are received at the Port Neches plant by pipe lines from refineries of the tive companies. The gasses which remain after butadiene is produced are returned to the refineries for manufacture of aviation gasoline and other petroleum products.

Irrigation was practiced by Indians in the southwest long before the arrival of the white man.

invoked a parliamentary weapon which forbids debate on motions the so-called "morning hour"— before 2 p. m. and got his motion to bring up the service vote bill approved by voice vote. The senate passed a modified Isoldier vote bill late last year which struck out a proposed federal war ballot for service men and women and substituted a simple directive to the states to use their own absentee ballots. That bill is pending in the house. The new bill which caused today's controversy again provides a federal ballot, but would leave with the states the power to pass on the qualifications of voters and the validity of each ballot.
